Circle of Security Parenting™

Fridays | 10:30am to 12:30pm
October 15 - Dec 10

Circle of Security is a highly effective parent-child attachment program that targets the development of connection, relationship and attachment – which are also foundations for language development, social skills development and good mental health.

Research confirms that secure children exhibit increased empathy, greater self-esteem, better relationships with parents and peers, enhanced school readiness, and an increased capacity to handle emotions more effectively.

The program is warm, kind, practical, and scientific. SPT has been running COSP for almost 10 years and love its accepting, non-judgmental approach.
